

## FUTURE FARMERS OF AMERICA

The Future Farmers of America is a national organization of students enrolled in high school vocational agriculture classes. The local unit is the chapter in each high school offering vocational agriculture, under the supervision of the agriculture teacher who is always the local chapter advisor. The state unit includes chapters of the state under the supervision of the Department of Education as represented by the Bureau of Agriculture Education Division of the U.S. Department of Health and Human Services, Washington, D.C. Every Future Farmer project in livestock, poultry, fruit crops, etc., is a part of the practical education of the vocational agriculture student who owns it. The program includes the improvements of agriculture leading ultimately to the ownership of farms and the development of good rural citizenship. Participation in Fairs and livestock shows is recognized as having educational value as well as stimulating for better results and finer projects under operation of the Fair's management.
